CLEANING MACHINES

The new
S 20 Eco Power

The most silent, powerful professional dry tub vac ever developed by nilco: the new dry tub vac S 20 Eco Power combines superior engineering, technical innovation with an ergonomic design. Its main competitive advantages are powerful suction, robust build and high filtration performance. During everyday use the S 20 Eco Power has a number of well thought out details making cleaning easier and time saving. With its large operating radius and its huge range of accessories the S 20 Eco Power achieves the best cleaning results plus impressive energy saving. The compressor motor can be switched from 1000 to 500 watts to meet the power needs of cleaning different floor surfaces. Thanks to the Super Silent Technology the S 20 Eco Power can be used at its super low efficiency level at any time of the day, even during hotel rest hours, or during office and shop working hours.

WHEN DESIGN MEETS FUNCTIONALITY

ECO POWER

The compressor technology combines the most efficient suction power together with impressive energy saving consumption. This is achieved by a fast rotating, aerodynamically optimized turbine that creates a very powerful vacuum for better dust pick-up. The motor performance, together with powerful air flow in the suction tube, brush and in the chambers provides the harmony for perfect cleaning efficiency.

Eco

SUPER-SILENT-TECHNOLOGY

The super quiet performance of the motor is achieved by developing a motor with low vibrating bearings, noise reduced multi-stage air flow, noise dampening in the engine housing and a special low noise suction nozzle. In the 500 watt position this high performance motor achieves "super silent" status of **54 db** (A) so that it can be used during the working hours.

54 dB

DESIGN

Development work and design match user requirements and orientate themselves to the demands of functionality and technique. According to this philosophy, the Fakir-nilco development department created in cooperation with a well-known German design agency a totally new and modern language of form for a compact dry pick-up tub vacuum cleaner, which is not only attractive but also provides high performance in all cleaning jobs.

MADE IN GERMANY

Quality is the result of decades of experience and the setting of the highest demands on itself and its partners. Since 1961, the name nilco is synonymous with the knowledge and experience proven for manufacturing professional floor cleaning equipment "Made in Germany". With this pedigree the S 20 Eco Power was designed, developed, constructed, manufactured and quality controlled in Germany, utilizing main components sourced from leading companies worldwide.

Unique One-hand locking
for easy locking /unlocking of the motor head

2 power settings
1000 Watt / 500 Watt
extremely silent

All round bumper
Furniture protector bumper

High mobility
5 rubber castors with multi-directional mobility

Cable cord holder
Useful cable cord holder, retractable

Exhaust air filter cassette
optional HEPA-filter H 13

Power head socket
for connecting electric suction brushes

Tools on board and tube parking
The crevice nozzle, upholstery nozzle and suction tube are easily stored on the cleaner

OPTIONAL ACCESSORIES

Floor suction nozzle *
30 cm

Electric suction brush *
28 cm, 30 W

Electric suction brush *
36 cm, 200 W

Hard floor nozzle *
with soft bristles

Turbo suction brush *
driven by air flow

Hand turbo brush *
driven by air flow

* optional

TECHNICAL DATA	S 20 Eco Power
Ref.No.	26 30 003
Dimensions	
Machine D x W x H	37 cm x 37 cm x 38 cm
Weight	5,8 kg
Cable length	12,5 m
Operating radius	15 m
Motor	
Number of motors	1
Voltage	230 Volt
Power input	1.000 / 500 Watt
Air flow max.	35 l/sec.
Vacuum	25 kPa
Noise level	59 / 54 dB (A)
Canister	
Made of	plastic
Total canister capacity	16,0 l
Effective canister capacity - solids	8,0 l

Standard equipment	
Suction hose	2,5 m
Suction tubes	2 x metal, black coated
Floor suction nozzle - SILENT	28 cm
Accessory holder	with upholstery nozzle and crevice nozzle
Nominal width - suction accessories	35 mm
Dust bag and filters	2 paper dust bags, exhaust air filter, motor protection filter

Transport and logistics data	
Transport packing	carton
Gross weight (including packing)	9,4 kg
Dimensions per packing unit	40 cm x 40 cm x 49 cm

ACCESSORIES

Designation	PU*	Measures	Ref. No.
Filters			
Textile permanent fine dust filter	1		26 30 850
Motor protection filter	1		26 30 405
Exhaust air filter set	1		26 30 890

OPTIONAL ACCESSORIES

Designation	PU*	Measures	Ref. No.
HEPA-Filter	1		26 30 870
Replacement paper dust bags	5		32 70 805
Replacement micro			
nonwoven dust bags	5		26 30 805
Permanent dust bag	1		22 15 890

Suction brushes			
Floor suction nozzle, 30 cm	1	Nw 35	32 00 860
Electric suction brush, 28 cm	1	Nw 35	22 15 810
Electric suction brush, 36 cm	1	Nw 35	22 15 910
Hard floor nozzle, 30 cm	1	Nw 35	27 24 880
Turbo suction brush, 28 cm	1	Nw 35	24 14 820
Hand turbo brush, 12 cm	1	Nw 35	24 11 820
