

Tork Aftørringspapir Standard, M1

Farve: Hvid Type: Mini Centerfeed Rulle

Fordel

- Allround aftørringspapir
- Ideel til rengøring af glas
- Velegnet til håndaftørring
- Godkendt til kontakt med fødevarer
- Tork Easy Handling™, emballage som er let at løfte, åbne og folde sammen, når du skal skaffe dig af med den.

Miljø

Content

Virgin Pulp

Recycled fibres

Chemicals

Material

Virgin fibres and recovered paper

In the tissue process both virgin fibres and recovered paper are being used. In the process it is a matter of finding an efficient solution where both virgin fibres and recovered paper play a role. Different fibres demand different processes and this determines the end product properties, and makes the fibre type (recovered or virgin) less important.

The environmental benefits and economic feasibility of recovered paper as a raw material source depend on its availability, transport distance and the quality of the collected material.

Bleaching of fibres

Bleaching is a cleaning process of the fibres and the aim is to achieve a bright pulp, but also to get a certain purity of the fibre in order to achieve the demands for hygiene products and in some cases to meet the requirements for food safety.

There are different methods used today for bleaching ECF (elementary chlorine free) where chlorine dioxide is used, and TCF (totally chlorine free) where ozone, oxygen and hydrogen peroxide is used.

Chemicals

The chemicals used in the process as well as the functional chemicals are assessed from an environmental, occupational health and safety and product safety point of view .

The used functional chemicals are:

Wet strength agent

Dry strength agent

If coloured = Dye

Fixing agents

If white Fluorescent whitening agent

If needed Glue

Softeners

Tork Aftørringspapir Standard, M1

Farve: Hvid Type: Mini Centerfeed Rulle

The process chemicals are:

Antipitch

Protection agent

Yankee coating

Defoamer

Dispersing agents and surfactants

pH and charge control

Retention aids

Broke treatment chemicals

Drainage aid

Food Contact

This product fulfils the legislative requirements for Food Contact materials, confirmed by external certification performed by ISEGA. The product is safe for wiping food contact surfaces and may also come occasionally into contact with foodstuffs for a short period of time.

Packaging

Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes

Environmental label = Ecolabel.

This product is approved for Nordic ecolabel and EU ecolabel.

Date of issue 2010-08-17

Revision date 2011-09-02

SCA Hygiene Products AB, Bäckstensgatan, 405 03 Göteborg

Production

This product is produced in Lilla Edet mill, Sweden, certified according to ISO 9001, ISO 14001.

Disposal / destruction of used product

This product is used both for personal hygiene and for industrial processes. When used in industrial processes the product might through use be contaminated with different substances. This will determine how the used product will be handled / disposed of /destructured. The product itself is suitable for incineration. If used in industrial processes contact local authorities before destruction.
